

ESPELEO

Ref: H51009

Harness designed for caving. Its lightness and resistance in friction areas is notable. The buckles securely lock the straps in all kinds of conditions. One size with a wide range: - Adjustable waist up to 120 cm. - Adjustable leg straps up to 90 cm. - Elastic straps at the back. Colour code. Designed in three colours: Red: Safety seams and gear loops. More intuitive manoeuvrability and an easy review of security points. Black: Covers the areas most exposed to contact and at risk of chafing. Includes a breathable carry bag.
