

H72007

Ref: H72007

Challenger Full Body Harness

For use in industry, vertical work, and confined spaces. Comfortable and lightweight. Designed for restraint, fall arrest, and suspension.

- Weight: 1700 g (S-M) and 1800 g (L-XL).
- Adjustable leg loops: 46-72cm (S-M) and 51-82 cm (L-XL).
- Adjustable waist: 60-100 cm (S-M) and 75-125 cm (L-XL).
- Dorsal height: 165-180 cm (S-M) and 175-200 cm (L-XL).
- Maximum working weight: 140 kg in all sizes (S-M-L-XL).
- Quick manipulation auto-locking buckles. Two buckles on the leg loops, two on the waist, and two on the chest.
- Anchorage points with 15 kN load capacity, distributed in lateral pelvis (2 points), central pelvis (1 point), and dorsal (1 point).
- Four preformed gear loops.
- Two loops for gear carabiners.
- Semi-rigid and padded belt, leg loops, and dorsal with double foam for excellent support. Preformed and breathable 3D fabric for maximum comfort in suspension.
- Recommended material: R00192.
- Approvals: EN 361:2002, EN813:2008, EN358:2018, EN365:2004.

Includes a waterproof bag with a capacity for 10 liters. The harness includes the carabiner: SYMMETRIC AUTOLOCK 3P.
