

PARAROCS ABS HELMET RED

Ref: E11100

PARAROCS

The Pararocs helmet is the ideal choice for climbers and mountaineers of all levels and ages. Designed with a solid and durable ABS outer structure, it provides exceptional head protection in all your rock adventures thanks to its impact resistance, hardness, and scratch protection.

On the inside, it features an EPP foam pad that covers the interior to dissipate potential impacts and a foam pad for added comfort.

Its robust and versatile construction makes it suitable for a variety of activities, from climbing and mountaineering to via ferrata, canyoning, and caving. It offers a customizable fit and ventilation for increased comfort. The Pararocs comes with four clips to attach a headlamp, a one-handed adjustment dial, and an adjustable chin strap.

The name "Pararocs", which means "for rocks", refers to its strength and required resistance for your rock activities. With this helmet, you can climb with confidence and comfort, overcoming challenges such as canyoning, caving, and via ferratas.
